

The Federal Communications Commission

Dear The Federal Communications Commission,

Please reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. As a senior citizen, low-volume user of Tracfone, I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. LAs I understand it, low-volume residential customers would unfairly bear the same universal service fund burden as a high-volume residential or business customers.

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Sincerely,

William Wilson
